

# ***DON'T GET SCAMMED***

**In 1968, educators walked out to protect the rights of Florida's teachers and staff.** That led to the **constitutional right** to have a union and a **collectively bargained contract** so that we have financial security and peace of mind. But certain billionaires are trying to scam you out of your rights so they can hoard even more money with a privatized education system!

**You are the union,** and your local union is how you have a voice in your profession and a contract in the workplace. **Don't get scammed by propaganda** from billionaires who want to silence your voice while stripping your rights. **Let's ensure stability and peace of mind by saying we're sticking with our union!**

## ***Ask yourself ...***

*Why are these billionaires setting up shadow groups to harass Florida educators, flooding our emails and U.S. mailboxes with anti-public school propaganda?*

---

*Why did these same shadow groups lobby lawmakers to fight against better pay for you and your colleagues, to expand vouchers, and to ban books?*

---

*Why are these shadow groups spending millions trying scam you so that you abandon your rights, your union and your contract?*
